

WESTERN PREVIEW

Constructed from space-age PVC foam, CSI Saddlepads' Extreme Performance Pad moves with a horse and rider to absorb shock and accentuate comfort.

The Extreme Performance Pad features a flex-plate made from thin layers of flexible polymer material to help eliminate age-old sore back and pinching problems. The flex-plate disperses weight in bothersome areas over a larger surface, lessening chances for problems. The pad also features a wither notch that keeps it lifted into the saddle gullet for extra stability and comfort.

CSI's Extreme Performance Pad comforts both horse and rider.

Sierra, the first helmet

designed exclusively for western riding, is the latest innovation from Troxel LLC.

The helmet features durable Cordura® nylon mesh and grain leather with a leather-covered retention system and steel harness rings to complete the rugged western look. Available in dual-toned tan or solid black and in four sizes, the helmet is lightweight and well-ventilated for maximum cooling and airflow.

Troxel offers the Sierra helmet for western riders.

Equestrian World's new Corral Panel Covers help improve the quality of horse training and exercise time.

Made from a durable mesh fabric, the panel covers allow for normal air circulation inside the pen while blocking outside views and visual distractions. The covers, made specifically to fit Equestrian World's corral panels, fasten to panels with Velcro® loop-and-hook tapes.

Keep your horse focused with Corral Panel Covers.

Ricochet Horse Spray™ provides a refreshing citrus scent while its essential-oil blend protects horses from flies and mosquitoes.

The spray includes lemongrass, eucalyptus and tea-tree oils, is nontoxic and can be used anywhere on your horse. The Ricochet spray is an ideal solution for barn managers, trainers and horse owners looking for a pleasant smelling, environmentally friendly bug repellent.

Equilite Inc., 437 Kulp Road, Pottstown, PA 19465; 800-942-LITE (5483); customerservice@equilite.com, www.equilite.com.

Protect your equine partners with Ricochet Horse Spray™.

Simplify the trailer-hitching process with DuraSafe's Couple-Mate®, an easy solution for those who have trouble with the time-consuming chore.

Made from double-dipped, zinc-plated steel for durability, Couple-Mate guides your trailer's coupler directly over the hitch ball every time. The simple device is easy to install and also helps prevent dings and scratches on the tow vehicle. Couple-Mate fits any standard receiver and works with most hitch balls.

DuraSafe, 1785 S. Johnson Road, New Berlin, WI 53146; 262-544-5615; www.durasafelocks.com.

Couple-Mate® makes hitching a trailer a snap.
