Tow Ball

DuraSafe, New Berlin, Wis., presents the SpeedBall™ Tow Ball, designed with an opening on the top of the ball where a standard 1/2-inch square drive ratchet can be inserted for easy and safe installation and removal. The system stops the ball from turning and eliminates dangerous slipping of the wrench. The SpeedBalls are available in 1-7/8-, 2- and 2-5/16-inch sizes.

Bluetooth Car Kit

Parrot, New York, N.Y., introduces its 3200 LS-Color Advanced Bluetooth® Car Kit for drivers who want wireless hands-free phone function with an easy-to-read color LCD display. The 64mm-by-58mm-by-20mm dash-mounted color LCD screen displays information including caller ID for both incoming and outgoing calls, adding photo ID when photos are programmed into the address portion of the car kit or phone.
