## Trailer Guardian

The Trailer Guardian helps prevent accidental decoupling and locks the trailer to the tow vehicle. It installs in seconds with a universal application that fits all ball-and-coupler combinations. In addition, you can place a lock in one of the spring pin holes to secure the trailer on the tow vehicle. Contact DuraSafe Inc. at (866) 544-5615; durasafelocks.com.

**Michael Mlynek, Powhatan Point, OH:** "The Trailer Guardian provides great peace of mind. When I tow my boat, I know my trailer is not going to uncouple from the ball. It has made my fishing trips more relaxing." **Paul Dominik, Hudsonville, MI:** "The Guardian makes me feel at ease while towing. The lock is a nice added feature against theft."

## Danny King's Catfish Punch Bait

This easy-to-use catfish bait does not require a ringworm or other dipbait—just pinch it onto your hook. It is packaged in pint, quart and gallon containers and is available in several flavors. Contact Danny King's Catfish Punch Bait at (877) 219-2248; grishamland.com.

**Gina Porzio, Grants Pass, OR:** "I was pleased with how well this bait stayed on the hook. Catfish are definitely attracted to the scent." **Eugene Singer, Easton, PA:** "Within minutes of putting Danny King's bait in the water the fish started biting."

## Turboset Tournament

Turboset's patented arm support cradle increases casting accuracy and hookset power while reducing arm fatigue and wrist pain. The Tournament Model features stainless steel hardware, a six-way adjustable easy-attach bracket, arm support cradle, comfort pad, pole pad and optional arm strap. Contact America's Fishing Device at (866) 925-2005; afdturboset.com.

**August Szczerba, Winter Garden, FL:** "This is a great product. It transfers the pressure from the wrist to the forearm while casting or retrieving heavy crankbaits, and while fighting fish." **Joseph Yurche, Hanover, PA:** "The Turboset helps prevent fatigue. It would be a good asset for anyone with carpal-tunnel syndrome or other disability."

## Worm-Glo

Worm-Glo adds fluorescent chartreuse color to live worms. It is a non-toxic, biological stain made with food nutrients that keep captive worms healthy. Once the food is ingested, the stain changes the worm's color in two to five days. The 6-ounce bottle treats 34 cups of bait. Contact Legend Laboratories at (830) 372-2239; legend-labs.com.

**Robert Parmely, Newcastle, WY:** "This is a great concept. It adds that little, subtle color change that is sometimes needed to trigger bites." **William Titman, Bloomsburg, PA:** "I experienced one of my best days on the water while using 'crawlers that were fed Worm-Glo. The bright color really attracted fish."
