### Sport Utility Trailer

**Thule**, Seymour, Conn., presents its Sport Utility Trailers, which feature a removable cargo cover to protect contents from the elements, an internal gas strut to assist with opening and closing the lid, and a drop-down tailgate for easy access to the trailer bed. They are available in two sizes—a 7-foot-by-4-foot model with 47-cubic-feet of carrying capacity, and a 5-foot-by-3.5-foot model with 30 cubic feet of carrying capacity.

### 4x4 Rear Bumper

**Bestop**, Broomfield, Colo., presents its HighRock 4x4™ Rear Bumper, which is designed for outdoor enthusiasts and features a Class 2.5 receiver hitch that accepts many popular 2-inch hitch mount accessories. The bumper offers a 4,000-pound towing weight and 400-pound tongue weight capacity, shackles for D-ring attachments and an easy, no-drill application.

### Trailer Safety Device

**Durasafe**, New Berlin, Wis., offers the Trailer Guardian™, a patented safety device that prevents accidental trailer decoupling with the added benefit of being able to lock the trailer to the tow vehicle by replacing one of the pins with a lock. The product appeals to anyone who tows a trailer, including boaters, campers, ranchers, antique car collectors/restorers, and more.
