Back-Up Camera System

etrailer.com®, St. Charles, Mo.,

offers a license plate mounted back-up camera system with a 2.5-inch color LCD

monitor. The light-weight monitor can be mounted anywhere and automatically turns on when the vehicle is put in reverse. The back-up camera helps avoid accidents and injuries and also works great for hooking up a trailer.

Universal Coupler Lock

DuraSafe Inc., New Berlin, Wis., introduces the patent-pending Universal Coupler Lock, a lock that

fits every coupler on the market. Its locking mechanism slides back and forth allowing 1/8-inch incremental adjustments easily fitting every coupler from 1/2-inch to 3-3/8-inch. One SKU now locks every coupler size available. The coupler features reversible keys for easy insertion and a fail-safe locking system that won't allow the key to be removed unless in the locked position. It is available in chrome-plated and stainless steel.
